What an unforgettable day!

8th March, 2019 (Friday)

Foggy

Today was an incredible day! The whole class was going to have a trip at The Peak after the Maths examination. My friends, Veronica, Milleens, Blythe, Rainbow, Kelly, Agnes and Tiffany were going too! I was so excited because my partner was Veronica.

After that, we went on The Peak Tram. Although The Peak Tram is slow, the view is brilliant. Inside The Peak Tram was so crowded so it was so hard to squeeze in. While we were taking the tram along the railway track, the fog covered the two sides of the view. When we stepped out The Peak Tram, the wind blew and blew. It was very windy and I felt so cold. We went to the shopping centre and we went to Burger King for lunch. I just ate a few chicken nuggets because I wasn't hungry at all. After that, we looked around the mall and the things there were expensive.

Then, we went out to do the interview. Wow! It was foggy! When I extended my hand, I could not see my fingers clearly. The wind fluttered my face and I thought, "Would the wind blow me away as my weight is so light?" My partner and I finally found a person to do the interview. His name is Valeria. He is from Argentina. This was his first time to visit Hong Kong. He said it was an interesting experience. We were happy after the interview.

When I was at home, I reflected that I should have had more self-confidence to ask questions and to be brave during the interview.
