

5D Ho Lok Kan

My Favourite Family Member

My favourite family member is Logan. What? Logan from the movies? You must be thinking of that, unless you haven't watched the movies yet. Well, Logan is a girl. A girl? Are you kidding me? She is my baby sister. But she looks like a boy to me. Why is she my favourite family member? What not my little brother Marx or little sister Heidi?

First of all, I named her so I like her name and also Logan rhymes with my name, Ho Lok Kan. That's funny, right? Also, she is the first child in my family who looks like me – she looks like me when I was small. She likes playing with me while Marx and Heidi like playing games on the phone. And they think I am not good at English at all. Logan likes to play with me and she also talks a lot – in English and Cantonese. She likes to laugh. Every day when she wakes up, she smiles.

I love my sister Logan a lot. She gives me joy when I am sad. When dad or mum shouts at me, she shouts back or cries. Having her, I feel like the luckiest person in the world!
