### **My Dream job**

What do you want to be when you grow up? I want to be a pilot.

Pilots need to take the passengers to different destinations. Also, a pilot needs to have the ability to deal with unexpected problems, so that I need to be calm and have a clear mind.

I want to do this job because I love travelling around the world and communicating with people from different countries. Being a pilot is a great challenge for me because there may be some unexpected matters during the journey. For example, not enough fuel, having turbulence or bad weather conditions.

If I want to be a pilot, I need to be fit, calm, clever, independent and have good eyesight. I am looking forward to doing this job in the future.
