A meaningful job I want to be

I want to be a fireman when I grow up because it is a meaningful job. If I become a fireman, I will help and rescue people from dangerous situations. I will put out fires.

Firemen need to be strong so that they can carry big equipment. Also they need to be brave. They need to be courageous so that they can save people from fires. They need to be calm too. They need to have a clear mind so that they can think of many ways to solve problems. They need to enjoy teamwork and respect others too.

I think this job is suitable for me because I am calm and strong. I am brave too. I need to do a lot of exercise so that I can be a strong person. I hope I can be a fireman some day.
